## 2023 Gewurztraminer Juice

*Anderson Valley*

### History

Our grandmother Beatrice Oswald enjoyed the sweeter things in life, and she convinced our grandfather to begin crafting non-alcoholic juice in the early 1980s. Having grown up with these juices on our table, we are thrilled to continue the tradition of homemade varietal grape juice to share with our children, and yours!

### Winemaking

This juice is made from 100% Anderson Valley Gewurztraminer grapes fresh from our estate vineyard. Picked at the perfect sweetness, the grapes were crushed, pressed, and stored at near-freezing temperatures to protect the juice from the active yeast that commandeer the winery during harvest. Only when ambient yeast populations return to normal, months after harvest, do we quickly bottle this non-alcoholic, unpasteurized juice.

### Tasting Notes

Farm-fresh aromas of tangerine, rosehip, honeycomb and lychee burst from the glass. In addition to these fantastic aromatics, an underlying ginger spice carries through a long-lasting finish. Enjoy the 2023 Gewurztraminer juice with the whole family; it will be a special treat for everyone.

Harvest:	Sept 27 at 22.2° Brix
Alcohol:	0%
Cellaring:	Drink within 1 year
